Software Engineer with 5 years of experience building scalable web application across Taiwan and Indonesia. Strong in API design, backend architecture, data modeling, and cloud deployments. Passionate about solving business problems through clean code, automation, and system integration.

WORK EXPERIENCE

大筆資訊電商平台 (BigOrder)

Taichung, Taiwan

Software Engineer

June 2020 to Oct 2025

- Built and maintained e-commerce and ERP systems using Node.js and Ember.js
- Developed shipping, membership, invoicing, and customer modules
- Integrated systems with third party payment gateway (PayUni) and shipping logistics APIs (7-Eleven, FamilyMart)
- Designed databases and caching using Arango DB and Redis to improve performance
- Supported agile delivery, code reviews, and team collaboration
- Improved system responsiveness and reliability through caching and async job processing

CV. Karya Hidup Sentosa

Yogyakarta, Indonesia

Software Engineer

Sept 2016 to Jan 2018

- Built internal web tools to automate business processes across departments
- Developed backend services using PHP and PostgreSQL integrated with Oracle ERP
- Improved data accuracy and efficiency by replacing manual workflows
- Helped streamline company-wide operations through custom web applications

EDUCATION

National Taiwan University of Science and Technology

Taipei, Taiwan

Master of Industrial Management

Graduate in 2020

GPA: 3.84 / 4.30

Member, Center of IoT Innovation Research Lab (2018–2020)

Institut Teknologi Sepuluh Nopember

Surabaya, Indonesia

Bachelor of Computer Science

Graduate in 2016

GPA: 3.54 / 4.00

Member, ITS Robotics Team (Indonesian Dance Robot Contest 2014)

SKILL & INTEREST

- **Programming Languages:** JavaScript, Typescript, PHP, Python
- **Frameworks:** Node.js (Hapi.js, Express.js), Ember.js, React.js, CodeIgniter, Yii
- **Databases:** Arango DB, MongoDB, PostgreSQL, MySQL, Redis
- **Testing:** Mocha
- **Messaging & Realtime:** RabbitMQ, WebSocket
- **Infrastructure & Tools:** Git/GitLab, Docker, CI/CD
- **Systems:** REST API, multi model data design, background processing, microservices
